

NAIL DUST COLLECTOR 858-2A

Model: 858-2A

Certificate No.: BSTXD200814033201EC, BSTXD200814033201SC

SPECIFICATIONS:

Power: 40W

Nominal input: 100-240V, 50-60Hz

Maximum speed: 3000 RPM

1. SAFETY OF USE:

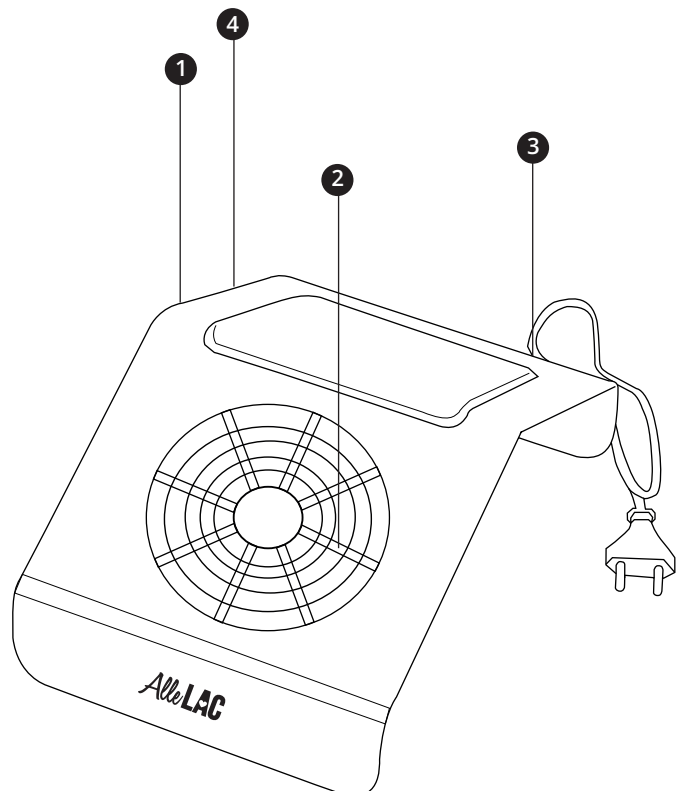

1. Do not touch the fan during operation.
2. Clean the device only dry.
3. Do not pull the power cable.
4. Remember that the actual voltage used must correspond to the parameters of the nail dust collector.
5. Do not unplug the device from the network when it is on and running. They should be turned off earlier.
6. Protect your device from contact with dust, water and other liquids. Store and use your device in dry rooms. Otherwise, the device may stop working and/or be damaged.
7. After the device is finished, remove it from the power supply network.
8. If the power cord is damaged, have it replaced with a new one of the same type at a service center.
9. Please note that making self-switches and changes to your device is prohibited and equivalent to the loss of warranty. The manufacturer does not take responsibility for the correct and safe operation of the device.
10. KEEP AWAY FROM CHILDREN.

2. THE SET INCLUDES:

- Nail dust collector
- Power cable
- 2 dust bags with eraser
- User manual

3. FUNCTION BUTTON CHARACTERIZATION:

1. ON/OFF (I/O) switch
2. Fan
3. Power cable
4. Fuse socket

4. MAIN FUNCTIONS:

- An irreplaceable and necessary tool when creating styling and in podology.
- Easy operate - place your hands or feet near the fan opening and the dust will be absorbed.
- Perfect for absorbing dust, nail fragments and skin fragments - both from hands and feet.

5. HOW TO USE:

1. Remove the device from the package and check that the dust bag is ready for operation.
2. If the dust bag is not mounted, mount it before connecting the device to the network.
3. Plug the device into power.
4. Turn on the device with the switch. After the fan starts working, bring your hands or feet closer to the nail dust collector opening.
5. After the end of use, turn off the device and disconnect it from the power source.

In accordance with *art. 13 sec. 1 of the Act of 11 September 2015 on used electrical and electronic equipment (Journal of Laws 2015 item 1688)*, we inform you about the correct handling of waste electrical and electronic equipment:

1. It is prohibited to place used electrical and electronic equipment together with other waste - this is confirmed by the marking in the form of a "crossed-out bin", which requires selective collection of this type of waste.
2. Electrical and electronic devices may contain hazardous substances, mixtures and components, which, after entering the environment, may pose a serious threat to the health and life of humans and living organisms.
3. Used electrical and electronic equipment should be transferred only to authorized collection points, the list of which should be included on the website of each Municipal Office.
4. Households play a key role in the waste management system for used electrical and electronic equipment due to the possibility of their direct transfer to authorized collection points and the elimination of undesirable social habits resulting in leaving waste equipment in places not intended for this purpose.
